DESCRIPTION

Skandilock Curly 17 mm is developed for furniture upholstery. The wool has a curly texture and is high in density which makes it durable and soft.

CARE & MAINTENANCE

In order to preserve the original condition of your sheepskin furniture, vacuum clean and air regularly. Spots should be immediately soaked with water. Clean with a sponge, luke warm water and a mild wool shampoo. Avoid placing the furniture in direct sunlight as color changes in the wool may occur.

NOTE

Natural variations in colour shade and wool character are likely to occur. Samples may not be identical to your order. When dyeing the skins, differences in fiber thickness and overall density will result in colour shade variations. All skins are naturally unique.
