DINING & OFFICE

FALK is a collection of chairs with a plastic shell and a variety of bases. Upholstered seats are available in different qualities and colors.

FALK is the realized vision of creating a functional chair of great beauty that expresses the Nordic design tradition. The organic lines of the shell result in a chair with personality. The flexible back, following the body combines outstanding seating comfort with a form that is both soft and inviting.

The shell is made from Danish household plastic trash and produced in Denmark. The technology behind reusing plastic household trash for furniture production is developed in Denmark. With FALK you are basically looking at the result of mixing Danish design and Danish innovation, and then converting this new thinking and material into a chair.

FALK is part of our MyTrash collection.

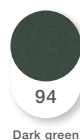

FALK Chair with column legs, solid oak legs and swivel base has limited availability.
