CPH 30 EXTENDABLE

Part of the Copenhagen range designed by Ronan and Erwan Bouroullec, the CPH 30 Extendable shares the same characteristic angled legs and strong identity that are consistent with the rest of the collection, yet its extendable design sets it apart. Supplementary extension leaves can easily be inserted into the table's central sliding mechanism, allowing the table to be extended to the required length. The table's flexible length makes it suitable for offices and public contexts, as well as workspace or dining solutions in home environments. CPH30 Extendable is available in a number of sizes with an oak frame in different finishes, and the tabletop comes in a variety of wood, laminate or linoleum options. The extension leaves can be purchased separately.
