### Technical features

---

#### Body

Nora's body is made out of solid wood, while the bent backrest is made out of thin veneer slices of high-quality oak. Chair elements are connected with characteristic and visible wedged mortise and tenon joints. Plastic gliders are attached to the chair legs and are suitable for most flooring options. The seat is connected to the body through black seat spacers, while the backrest is attached to the chair legs with black powder-coated spacers.

#### Seat

Three material options for a seat are available: as a form-pressed veneer seat or as leather or fabric upholstered options. For further information please see Available materials and colors page in this document.

#### Finish

Wooden parts are available in two plant-based Hardwax oil finishes (colors), which retain wood natural state, as a white or natural oil or two dark-colored Lacquered options as a Charcoal or Black.

#### Cleaning

Please see Product or Material page on our website.

## Notes to consider

---

The dimensions shown in this document are indicative, they may vary due to the natural properties of wood, season, or manufacturing processes, for these reasons deviations from the specified size may occur, usually no more than 1 cm.

Natural variations in wood color and surface may occur. Regular maintenance will ensure the wood preserves its authentic beauty and can last for generations.

All Nora seating products have a form-pressed veneer option for a backrest, except the lounge chair which comes in upholstery options as well (in line with chosen seat material and color).

## Standards and certifications

---

Nora chair, Nora lounge chair and Nora bar chair fulfil requirements of standard BAS EN 16139:2014 + BAS EN 16139/Cor1:2014 Furniture - Strength, durability and safety - Requirement for non-domestic seating.
