Balcony

Design by Ronan & Erwan Bouroullec

French brothers Ronan and Erwan Bouroullec have teamed up with HAY to create Balcony, an elegant new collection of outdoor furniture. Comprising an assortment of chairs, tables and benches, Balcony's expression is characterised by the symmetrical holes incorporated into the design. The presence of these laser-welded holes softens the aesthetics, as well as providing extra stability, creating a versatile collection that offers strength, comfort and a distinct appearance. Made in powder-coated steel with a weather-proof coating, Balcony's diverse size and colour options makes it suitable for all kinds of outdoor spaces.

Palissade Park

Design by Ronan & Erwan Bouroullec

The result of an ongoing collaboration between HAY and the Bouroullec brothers, the Palissade Park Bench and Park Dining Bench are the latest additions to the iconic Palissade outdoor furniture series. The benches were created from the desire to offer a flexible, modular seating solution for larger outdoor spaces, whilst retaining the same symmetrical idiom and visual simplicity as the rest of the series. Combining multiple benches together gives users the opportunity to extend the available seating space and form unique configurations to suit specific functional and aesthetic requirements. Designed in colour and form to integrate effortlessly into a natural landscape or urban setting, the collection suits a wide variety of larger outdoor environments such as gardens, parks and public spaces.

Hee

Design by Hee Welling

The philosophy behind the Hee Series was to take an archetypal chair and perfect it down to the last detail while cutting the essentials to the bone. The goal was to create a contemporary chair to fit into a wide range of contexts. The attempt was a great success, resulting in the pragmatic and easily decoded Hee series. Like a line drawing, it wraps metres of metal wire into neat, straight lines in three versions: bar stool, lounge chair and dining chair. Stackable and weatherproof, the wide assortment of colours and designs make Hee suitable for numerous indoor and outdoor contexts, such as bars and restaurants, as well as public spaces and home environments.

13Eighty

Design by Scholten & Baijings

HAY's 13Eighty chair designed by Dutch designers Scholten & Baijings is aptly named after the number of tiny holes in the moulded polypropylene shell. These perforations create a characteristic aesthetic, where transparency and a play of light and shadows add to the chair's expression, while the variations in the sizes of the holes bring a sense of movement to the visual appearance. They also have a functional use in draining rainwater off when the chairs are used outdoors.

Available in a variety of designs, with or without armrests and stackable. 13Eighty is a versatile chair with possibilities for both indoor and outdoor contexts.

Design by STUDIO 0405, Nikolaj Mentze

Designed by STUDIO 0405, the Apollo Lamp is a portable and free-standing lamp for indoor and outdoor use that creates space and intimacy wherever it is placed. Hand-made in a single piece of opal glass, its rounded curves and unified silhouette are a contemporary interpretation of the classic lamp form. The light source and rechargeable battery are concealed within the shade, illuminating the upper part to provide a warm, ambient glow. Apollo's portability and deliberate simplicity of design make it suitable for using in many rooms in a domestic environment, as well as cafés, patios and other outdoor spaces.

Pao Portable Lamp

Design by Naoto Fukasawa

Developed as part of the Pao Lamp collection for HAY by Japanese designer Naoto Fukasawa, the Pao Portable lamp is a portable lamp inspired by the atmospheric glow of the dome shaped Mongolian Pao tents at night. Concealing the lighting source inside the shade, Fukasawa creates a compact everyday object that harmonises with the environment it is placed in. The lamp's beautiful simplicity combined with soft ambient lighting create a warm, homely glow in gardens, cafés and other outdoor and indoor spaces.

Crafted in outdoor powder coated steel and cast aluminium to offer greater durability and resilience, it has a versatile quality that makes it well-suited to both indoor and outdoor use. Terrazzo Table

Design by Daniel Enoksson

Swedish designer Daniel Enoksson's Terrazzo Table features a round- or square-shaped table top crafted in highly functional electro-galvanized steel and powder coated to make it extra resilient. For the designer, terrazzo was an obvious choice to use as the base, partly due to its excellent durable properties, but more importantly, it has such a unique and distinctive finish that makes an effective contrast against the stark simplicity of the table top. Designed to withstand the outdoor environment, the table is suitable for all kinds of indoor and outdoor use.
